

# Video Conference Camera Lift

## Model: CL-1201

### The Perfect Solution for Teleconferences Everywhere!

The Video Conference Camera Lift is ideal for conference rooms and video calls. It is designed to completely conceal the video conferencing camera within a ceiling-recessed case, ensuring a clean and professional appearance.

Experience seamless performance with this sleek, ultra-quiet lift that lowers your camera from the ceiling to the ideal eye level in just seconds. Designed for precision, it extends up to **1 meter** below the ceiling while keeping the camera perfectly centered, ensuring professional quality positioning for every meeting or video call.

- ✓ Remote Control Included
- ✓ Electronic Programmable Position with remote on ground
- ✓ Powered by world leading motor : Precision, Reliable and Safety
- ✓ Accommodate larger camera size
- ✓ Lowered up to 1000mm below false ceiling level

### Optional Control Available

RTS Dry Contact Transmitter

RTS Wireless Wall Switch
